I had almost a day to think about this The Message in this video was actually a hand off to the states the states are the ones who have to remove federal

control from the states and then as a group reestablish or create for the first time a Republic form of government of these united states of America

everything was put into play for us to do this we just have to implement it

devolution was just to set the playing field up for fair play

**Now we the People of States Need To Play or be Slaves**

I'm Not Waiting For President Trump

## My Brothers Response

She still doesn't get it. You have to fix, repair or replace the foundations of America or it will be same old shit different day using different methods to harm us. The Band-Aids of deceit must be ripped off to be exposed to the light for cleansing.

## STOP THE HOPEFUL CALMING MESSAGES FOR THE HOPE-FOOLS.

She will never discuss what happen in 1781, 1783, 1787, 1789, and 1791.

What should be the most important corrective action for all to pursue is towards the Rule Of Law. **Yes, the Common law for America as entitled 'Colonial Law, that all the Thirteen Colonies considered to be the final bases for all law in America or ever to be in America...** "the colonies were so impressed with the idea of an **overruling law of**

**nature that the laws of God and so-called natural laws were regarded as the true laws, and all temporal legislation was considered to be binding only in so far as it was an expression of this natural law"**

James Wilson, the foremost lawyer at the Constitutional Convention, a signer of the Declaration of Independence, and a man who was appointed to the Supreme Court in 1789 and was well familiar with this legal principal stated above called Natural Law and stated; **"Parliament may, unquestionably, be controlled by natural or revealed law, proceeding from divine authority".**

**If the Rule of Law isn't changed away from the King's man made laws, how can anything change with any permanency?**

## **My Reply**

### **Yes I understand This**

We have to go Baby Steps

The first thing is to have the people wake up and finally realize they are in control

And not to be afraid of having control

and to have enough self esteem to follow through and implement this control and this control has to start in the states

This is what makes things very hard

Continuity of Government in Michigan

The programs are created by the cabal then sold to the feds and the states implement this pattern

How hard is it to disassemble such a large entrenched Beast

Who loses. the see saw of employment was in 1900s 4-5 % government workers to private worker

Today its 55% Government to 25% private

The wages are being paid out of future promises

Who is in charge

De fund the Federal Government  
and then We Are free

My Brothers Response.

**Yes, baby steps need to be taken to undo the incremental steps of harm they applied. The parents can start with their school systems curriculum. The children are the ones with open minds to except these truths. Little debriefing would be required.**

**You asked, How hard is it to disassemble such a large entrenched Beast. Find a way to starve them of our\$\$\$\$\$\$\$\$\$ by hold them accountable by an accountable ledger.. Ask the question of your representatives or impersonators, Where is our Republican form of government stated within our State Constitution per Article IV Section 4? When we request a D&B Report why is your government office/agency listed as a CORPORATION for profit? To what constitution did you take an oath to? Have you taken any Masonic or other secret oaths, and will you publicly denounce them? Will you take a new oath to the organic constitution repeating "this Constitution *FOR* the United States OF AMERICA"? (caps my emphasis) and sign a copy of this Constitution as your employment contract.**

The people that work for the so called government actually are working for a Corporation who can make their own rules, *I.e.* a PPM - not laws.

Because their paycheck are funded by We the People, we are the employers of them. We just don't understand that.
